SUMMARY

Enthusiastic Java Backend Developer with hands-on experience building REST APIs and microservices using Java, Spring Boot, Spring Cloud, PostgreSQL, and Docker. Strong foundation in Data Structures & Algorithms, DBMS, and Computer Networks, with a passion for developing scalable backend systems.

EXPERIENCE

NIELIT Kokrajhar Extension Centre

Feb. 2026 – July 2026

Work-Based Learning (WBL) Intern under AICTE

Kokrajhar, Assam

- Developed a microservices-based Public Health Care Kiosk System using Java, Spring Boot, Spring Cloud, PostgreSQL, and Redis, with Appointment, Availability, Recommendation, and Forms services.
- Designed RESTful APIs and implemented service discovery and inter-service communication using Spring Cloud Gateway, OpenFeign, and Netflix Eureka.
- Integrated PostgreSQL and Redis, containerized services with Docker, and delivered Python training, IoT mentoring, and cybersecurity awareness programmes.

PROJECTS

Public Health Care Kiosk System | *Spring Boot, Spring Cloud, PostgreSQL, Redis*

- Built a healthcare kiosk using a microservices architecture consisting of five Spring Boot services.
- Implemented REST APIs with Spring Cloud Gateway, Eureka, OpenFeign, PostgreSQL, and Redis.

CCTV Footage Summarization System | *Python, OpenCV, YOLOv8, NumPy*

- Designed an AI-powered CCTV video summarization pipeline using motion-based keyframe extraction.
- Reduced video duration by over 80% while preserving significant events.
- Integrated YOLOv8 object detection to generate annotated summary videos.

EDUCATION

Banaras Hindu University

Aug. 2024 – June 2026

Master of Computer Applications

Varanasi, UP

Gauhati University

Oct. 2021 – June 2024

Bachelor of Computer Applications

Guwahati, Assam

SKILLS

Languages: Java, Python, SQL, C, PHP

Frameworks: Spring Boot, Spring Cloud, Spring Data JPA

Databases: PostgreSQL, MySQL

Tools: Maven, Git, GitHub, Postman
